PLAN FOR EVACUATION AT BLUEGRASS ARMY DEPOT

Plans have been made for student safety in the event of an incident at the Blue Grass Army Depot (BGAD). Should an emergency at the Depot affect the Protective Action Zone (PAZ) area of Powell County, students who live in that area will be held at their schools for pickup by their parents.

In order to assist the Powell County Emergency Operations Center to support evacuees, school buildings within the Powell County School system may be utilized as host schools, a reception center, and the Red Cross mass care shelters. The designated Reception Center is the High School. Schools used as mass care shelters will be the High School, Middle School, Bowen Elementary, Clay City Elementary, and Stanton Elementary Schools. The High School and Middle School are also designated as host schools for Madison and Estill Counties. All mass care shelters are operated by the American Red Cross and will provide food and lodging for those citizens who are required to evacuate their homes. I appreciate your cooperation. If you have any questions regarding these emergency procedures instructions, please contact the District office.

PREFACE

Kentucky Law (KRS 160.290) provides, "Each Board of Education shall have general control and management of the Public School in its district and each Board shall exercise generally all powers in the administration of its Public School System; . . . each Board shall make and adopt and may amend or repeal rules, regulations, and by-laws for its meetings and proceedings for the government, regulation and management of the Public Schools and school property of the district, for transaction of its business and for the qualification and employment of teachers and conduct of pupils. . . ."

In this document students will be considered the same as pupils as those terms are used in the Kentucky Revised Statutes, and in Board of Education Policies.

As required by State Law, the Powell County Board of Education has adopted a written statement of Board Policies which is subject to amendment from time to time. The statement of Board Policies is available in the Central Office, on the district webpage, and in the office of each school principal for examination by any interested person.

To expand existing Board Policies and to clarify various matters of concern to all students, parents, teachers, principals/administrators, teachers, and interested citizens, the Powell County Board of Education has adopted this Code of Conduct and Statement on Rights and Responsibilities effective for the 2019-2020 school year.

This Code of Conduct recognizes that each of the above persons has a vital, necessary and well defined role in the educational process.

Many of the policies are not applicable to disabled students. Refer to Powell County Board of Education Policies & Procedures and User's Guide to Discipline for Students with Disabilities, which is available in each principal's office, and Technical Assistance Manual for Special Transportation.

PURPOSE AND SCOPE

The Powell County Board of Education recognizes and hereby acknowledges that students have various rights and responsibilities for their conduct, and parents, teachers and administrators also have a responsibility in ensuring that student conduct promotes learning. The purpose of this booklet is to advise all members of the school community of the board's policies relating to the conduct and discipline of pupils.

According to Kentucky Law, KRS 161.180, each teacher and administrator in the public schools shall, in accordance with the rules, regulations and by-laws of the board of education, hold pupils to a strict standard for their conduct on school premises, (whether school is in session or not), on the way to and from school, and on school-sponsored trips and activities. A student may also be disciplined for conduct off the school grounds which has a direct effect on the discipline or welfare of the school community, such as vandalizing a teacher's property.

POLICY STATEMENT

It is the intent of the Powell County Board of Education to provide a positive and safe school climate for all participants (students, teachers, administrators, and parents/guardians) in the schooling process, where orderly learning is possible and encouraged. Therefore, this code of conduct has been developed to ensure consistent and fair treatment for all participants in an atmosphere which fosters open communication and fairness as outlined by constitutional due process. In addition, the Board of Education expects that sound, fair, and equitable judgment shall always be considered by students, teachers, administrators, and parents/guardians in applying the policies of this code.

Further, it is anticipated that this code of conduct will enable all students to develop their human potential to the fullest. Finally, students will be responsible for abiding by this code of conduct in school, at school-sponsored activities, and on school buses employed in the educational experience.

The Powell County Board of Education, in support of the aims of public education, believes that students' behavior shall reflect standards of good citizenship expected of members of a democratic society. This code sets forth the behavior expected from each student, the consequences of failure to obey the standards, and the importance of the standards to the maintenance of a safe learning environment.

The Board of Education pledges its full support to all school employees responsible for implementing this uniform code of conduct.

ATTENDANCE REQUIREMENTS

Kentucky Compulsory Attendance Laws KRS 159.010. Parent or Custodian to Send Child to School Age Limits for Compulsory Attendance

“Except as provided in KRS 159.030, each parent, guardian, or other person residing in the state and having custody or charge of any child who has entered the primary school program or any child between the ages of six (6) and eighteen (18) shall send the child to a regular public school for the full term that the public school of the district in which the child resides is in session, or to the public school that the board of education of the district makes provision for the child to attend.”

Both excused and unexcused absences have an impact on your child’s education. Key instruction is missed with either absence type. We ask that you please try to schedule routine appointments so that as little instruction time is missed as possible. Try to schedule so your child can come to school and leave at the end of the day or early in the morning and then return to school when possible.

What Constitutes Truancy? KRS 159.150

Any student who has attained the age of six (6) years, but has not reached his or her eighteenth birthday, who has been absent from school without a valid excuse for three (3) or more days, or tardy without valid excuse on three (3) or more days, is a truant. (Please note that 704 KAR 5:060 applies the truancy law to kindergarten children who remain in the primary program after 2 school calendar months even if they are not yet 6 years old.)

A student enrolled in a public school who has attained the age of eighteen (18) years but has not reached his or her twenty-first birthday, who has been absent without valid excuse for three (3) or more days, or tardy without valid excuse on three (3) or more days, shall be considered truant.

Any student who has been reported as a truant two (2) or more times is a habitual truant.

TRUANCY AND HABITUAL TRUANCY PROCEDURES

Principals and assistant principals shall follow these procedures regarding truancy and habitual truancy:

When a student is determined to be a truant for the first time, the principal shall notify in writing the parent(s) of any student accumulating three (3) unexcused absences in one (1) school year.

After a student accumulates six (6) unexcused absences, the student shall be referred to the Director of Pupil Personnel. The District may begin prosecution in District Court against the student’s parent(s). In certain cases, juveniles age 13-17 may be charged in the juvenile system.

Charges that may be filed against a parent are:

- Truancy- This charge has the potential to cause a \$100 fine for the first offense, \$250 for the second offense, and subsequent offenses shall be classified as a Class B misdemeanor.
- Unlawful Transaction with a Minor in the 3rd Degree- This charge has the potential to cause a parent to have to serve jail time.

Charges that may be filed against a student ages 12-17

- Truancy- This charge will be submitted to the Court Designated Worker and has the potential to cause the student to be involved with the juvenile justice system and FAIR team.

Charges that may be filed against a student ages 18-20

- Truancy- This charge has the potential to cause a \$100 fine for the first offense, \$250 for the second offense, and subsequent offenses shall be classified as a Class B misdemeanor.

ABSENCES AND EXCUSES

A student’s attendance record is cumulative during a school year and requires that when a student transfers to a new school, his/her attendance records from the previous school shall be used in the determination of the student’s status as a truant.

An excused absence or tardiness is one such as:

1. Death or severe illness in the pupil’s immediate family.
2. Illness of the pupil.
3. Religious holidays and practices.
4. One (1) day for attendance at the Kentucky State Fair.
5. Court appearances (with note from court officer).
6. Documented military leave.
7. One (1) day prior to departure of parent/guardian called to active military duty.

8. One (1) day upon the return of parent/guardian from active military duty.
9. Visitation for up to ten (10) days with the student's parent, de facto custodian, or person with legal custody who, while on active military duty stationed outside of the country, is granted rest and recuperation leave
10. Ten (10) days for students attending basic training required by a branch of the United States Armed Forces, or
11. Other valid reasons as determined by an administrative decision.

Definitions

1. Definition of **excused absence**: a student who is absent for one of the reasons listed above for a part or all of the school day. Parents **MUST** send excuse documentation to school for one of the above reasons.
2. Definition of **unexcused absence**: a student who is absent for part or all of the school day for reasons other than those set forth above regarding excused absences or for whom personal excuses are exhausted.
3. Definition of **tardiness**: a student who is absent for less than 35% of the day.

A student who has a chronic medical condition that causes him/her to consistently miss school may submit what is considered a standing doctor's note. This type of note must come from a specialist in the field of medicine that relates to the condition causing the absences or tardies. Standing doctor's notes must be submitted annually and approved by the DPP.

Attendance Calculations

According to 702KAR 7:125, attendance shall be calculated in the following manner:

Section 3. The guidelines in this section shall be used to calculate student attendance for state funding purposes after June 30, 2010.

- (1) A full day of attendance shall be recorded for a pupil who is in attendance at least sixty-five (65) percent of the regularly-scheduled school day for the pupil's grade level.
- (2) A tardy shall be recorded for a pupil who is absent less than 35 percent of the regularly-scheduled school day for the pupil's grade level.
- (3) A half day absence shall be recorded for a pupil who is absent 35 percent to 84 percent of the regularly-scheduled school day for the pupil's grade level.
- (4) A full day absence shall be recorded for a pupil who is absent more than 84 percent of the regularly-scheduled school day for the pupil's grade level.

Chronic Absenteeism

A student is considered chronically absent when he/she misses 10% of their enrolled days whether absences are excused or unexcused. For the Powell County Schools, this equates to 17 school days missed. Parents will be notified when their child is chronically absent to make them aware of the number of days missed.

Parent/Guardian Requested Absences and Tardies

A student shall be allowed up to six (6) absent events and six (6) tardy events per school year based on enrollment date for the purpose of any personal reason of the parents. The school work missed while the student is out of school will be allowed to be made up under this category. If a student enrolls in the district after the start of the school year, they will have the number of personal excuses equal to the number of grading terms remaining.

Parent notes or personal excuses used in prior schools are carried through to the Powell County Schools.

Personal excuses will be provided automatically by the school for the first 6 absences and first 6 tardies a student has in which another excuse is not provided. If an excuse pertaining to such things as doctor's notes, court, funeral, etc. is not submitted the day a student is counted absent, a personal excuse will be entered for the student until 6 personal excuses have been used. All excuses such as doctor's notes, funeral notes, court appearance documentation, etc. are expected to be turned in upon the day the child returns to school. Students will have 10 school days from the date of the absence to bring the excuse in. (All excuses at the end of the school year must be submitted by the official closing day of school.) If an excuse is provided to the school within 10 school days of an absence for one of the reasons listed as excused absences and a personal excuse has already been entered, the personal excuse will be changed to reflect the provided excuse and the parent will retain the personal excuse for a later time.

After ten (10) school days from the date of an absence, if no excuse is received and if all personal excuses have been used, the absence is considered unexcused and will not be changed except in rare instances under the approval of the DPP. Once a Final Notice has been served, no excuses for previous unexcused absences will be accepted.

It is the responsibility of the parent to ensure all doctor's notes, funeral notes, etc. are submitted to the school to be recorded. Parents may check Infinite Campus to make sure absences were excused or may inquire with the attendance clerk at any time. All schools have a process for students to submit excuses. However, parents who send excuses in with their children should check with their child to make sure the excuse was submitted including, but not limited to, looking through younger children's folders and backpacks and talking to older children to make sure excuses were submitted. Parents should not rely upon a doctor's office to fax an excuse without checking with the school to make sure it was received. Parents are also welcome to bring excuses to the school themselves or mail them to the school as long as the excuse is received by the school no later than 10 school days after the absence.

A call will be made by the automated calling system when the final personal excuse is entered so that the parent will know any further absences MUST be followed up with a written excuse from a physician, court, funeral etc. or the absence will remain unexcused.

ACCEPTANCE OF EXCUSE NOTES

We ask that parents help their children make routine and follow up appointments at local offices, CDWs, court, etc. so as little time missed of school as possible can be achieved. If a local health professional or other valid excuse provider indicates that a student could return to school on the same day as seen by the provider and the student fails to return in a timely manner, the excuse will not be recorded and a personal excuse will be recorded if student still has any or the absence will remain unexcused. Additionally, students with appointments late in the school day should attend school until travel time to the appointment unless the student is too ill to attend. POWELL COUNTY ACADEMY GRADUATION TRACK PROGRAM

The Powell County Academy was established as an alternative education placement in 1996 through a vision to provide a learning environment where those students who could not function well in the regular school program could learn, grow, graduate, and become successful members of society. In 2013, the Kentucky Legislature created law 704 KAR 19:002

establishing minimum requirements for the operation of alternative education programs in school districts. At that time, alternative education sites that were off of regular school campuses were forced to become individual schools and not just alternative placement centers. The Powell County alternative center was renamed to the Powell County Academy in an effort to demonstrate a commitment to making the school a learning environment in which students of all backgrounds with various needs could flourish and meet the Kentucky minimum requirements for graduation as outlined in 704 KAR 3:305 a reachable goal. It is the intent of the Powell County School District administration and Board of Education that the Powell County Academy offer both a temporary instructional setting for students who get slightly off of their regular graduation path as well as a graduation track in which students can enroll and complete all curriculum required for graduation in an effort to make each student in the Powell County schools a successful graduate.

The Powell County Academy (PCA) will offer a Graduation Track Program for students who are high risk for drop out or failure. Students who choose to follow this program are making a commitment to the PCA and will remain in until they have graduated. Students may be recommended to the graduation track by the Crisis Intervention Team (CIT) or may choose to apply to enroll in the PCA on their own. Graduation Track application packets may be picked up at the Powell County High School guidance office. Students who qualify and enter the Graduation Track Program are subject to the same expectations in regards to counseling services, parent/guardian expectations, and discipline/consequences as listed above in the Temporary Instruction Setting Placement at the PCA.

SELECTION PROCESS

No student will be considered for selection into the Graduation Track Program until after they have completed their freshman year in high school unless they are at least 16 years of age and do not have enough credits to be considered a sophomore. Under only rare circumstances will a student be allowed to enter the graduation track prior to completing their sophomore year in high school.

Students should complete their application to the Graduation Track Program prior to the end of their current year in high school. Applications will be reviewed by the CIT in June or July. This committee shall consist of the high school Principal and/or Assistant Principal, high school Counselor, PCA Director, Dropout Prevention Coordinator, Director of Pupil Personnel, Director of Special Education, and Migrant Coordinator. Students will be selected for interviews before the committee. Parents will also be contacted to attend interview and determine commitment for placement in the Graduation Track Program and to ensure there is a complete understanding how the program will benefit their child and how the program operates.

Students whose needs have changed after the start of a school year may apply to the Graduation Track Program during an active school year. However, only those applications received by November 30th of that year will be considered unless exceptional circumstances determined by the CIT committee exist. Students must have a minimum of one (1) complete semester in the Graduation Track Program and space is limited.

After reviewing applications and interviewing students, the CIT committee shall make a decision on which students will be allowed to enter the Graduation Track Program. If there are more students applying than there are spaces for, the committee may rank order the students and create a waiting list in the event a student who is selected cannot fulfill the requirements of the program and is dismissed or withdraws from the district. The decisions of the committee shall be considered final, and if a student is not accepted for the program the first time he/she applies he or she may submit another application for the following year.

Other Provision

A student who is at least seventeen (17) years of age and who is a state agency child, as defined in KRS 158.135, shall be eligible to seek attainment of a High School Equivalency Diploma.

SCHOOL DISCIPLINE

Discipline is the positive direction of behavior toward established standards of conduct, fully understood and based upon reason, judgment and the rights of others. An important part of the educational process is helping young people become aware of their rights and responsibilities that accompany those rights. Ideal discipline is self-directed and self-controlled. Parents must be the first to foster self-discipline with the child at home; the school provides an environment in which this training can be developed further, enabling all students to have the right to pursue their own educational needs without unnecessary disruption.

When self-control falters and self-discipline fails, disciplinary forces outside the individual must be imposed to protect the rights of others. For those students who seem unable or unwilling to adjust self-discipline to the common good and who continually disrupt the orderly operation of the school, procedures must be established to prevent and correct abuses. These rules and procedures are basically the same from preschool through grade twelve. Parents, teachers and others responsible for the welfare and education of these students must cooperate to interpret and enforce these rules.

Board policy determines acceptable behavior and discipline for all students for the purpose of maintaining a safe learning environment where orderly learning is possible and encouraged. The superintendent, or designee, shall be responsible for overall implementation and supervision and each school principal shall be responsible for administration and implementation within each school. Each school council shall select and implement the appropriate discipline and classroom management techniques

necessary to carry out the code. The board shall establish a process for a two-way communication system for teachers and other employees to notify a principal, supervisor, or other administrator of an existing emergency.

Please refer to the User's Guide to Discipline for Students with Disabilities for IDEA and 504.

4. Early intervention planning meeting with the student and parent as arranged by Counselors
5. Reinstatement requires a negative test result in accordance with the same procedures utilized for random drug testing. A negative result will allow the student’s reinstatement; however, a positive result will be treated as a second violation.

Same as first offense with 9-week suspension before reinstatement possible.

Third Offense

Same as first offense with 36– week suspension before reinstatement possible.

1. The student is informed of the charges against him/her and given an opportunity to address those charges in writing. Parents or legal guardians are called and informed of the violation and will be present or provide consent for discussion with

- police.
2. SRO or other law enforcement agency with jurisdiction shall be notified. Confiscated substances may be given to the police.

 4. The student will receive an out-of-school suspension for a period of 3 to 5 days. (A student who is a first time offender for trafficking in a controlled substance may be expelled for up to one calendar year from the date of the offense.) If the student is sent to a detention facility or treatment center, the suspension time will begin as soon as the student leaves the building and the days spent in the facility will be in lieu of the suspension. The student must have a drug test within 48 hours of the incident and present the report to the school. If this is not followed through with, the student will receive 20 days in the Powell County Academy. Before a student will be allowed back in a regular education setting, he/she must be drug tested. In addition, a drug evaluation from a certified Chemical Dependency Counselor and/or physician must occur in order to determine the extent of the student's involvement with drugs or alcohol. This evaluation or confirmation of the appointment shall take place prior to the student returning to school. Expenses incurred for evaluation/treatment will not be the responsibility of the Powell County Board of Education.
 5. A letter documenting the charges of suspension must be mailed or given to the parents or legal guardian. A copy of this letter must be delivered to the superintendent.

At the end of this conference the student, parents and above-named school personnel will sign a "First Time Offender Policy Contract" which among other things, requires passing grades, regular school attendance, and will include referral for participation in an evidence based drug education program.
 7. The student will receive up to 20 days in alternate placement. The 20 days in an alternate setting shall include all suspension days, days spent in treatment centers, and days spent in detention centers. The total days in alternate placement may exceed 20 if behavior or grades are not satisfactory while in alternate placement. The school personnel will help the student set goals for him/herself which will ensure that the contract is fulfilled.
 8. The "First Time Offender Policy Contract" will be in effect for the remainder of the student's enrollment in the Powell County Schools. Violations of any part of the contract may result in further suspension and possibly additional time spent in the Alternative Education Program.

Second and Succeeding Offenses:

For a second or succeeding offense of any nature of the drug/alcohol policy, all first offense procedures still apply. Extended time in the Powell County Academy alternative learning school may be assigned. The student may also be recommended by the principal to the superintendent for expulsion for up to one calendar year from the date of the offense. The student will be entitled to a due process hearing and procedures that are outlined in the first time offenders consequences. If expulsion is being recommended, the student shall remain suspended pending a board hearing.

Any student suspended is prohibited from entering any school or school grounds (except for a pre-arranged conference with an administrator) during the suspension. He/she shall not attend any day, night, or weekend functions of the Powell County Schools or ride a school bus during the term of suspension. Violation of this is cause for expulsion.

Any student who has been expelled for posing a safety threat to other students or school staff is prohibited from entering any school or school grounds during the expulsion. He/she shall not attend any day, night, or weekend functions of the Powell County Schools.

 - a. Oral or written notice of the charges against him or her that constitute cause for suspension.
 - b. An explanation of the evidence of the charges, if the student denies them; and
 - c. An opportunity to present his or her own version of the facts related to the charges.

3. Primary school students shall be suspended only where there are safety issues involved.

Expulsion Procedures

1. When a student is suspended pending recommendation for expulsion, the building principal shall notify the superintendent who shall meet with the principal or designee to investigate and review the alleged misconduct and all relevant matters. The building principal shall hold a conference with the parent(s) or guardian(s) and the student to discuss the reasons for the suspension and proposed recommendation for expulsion.
2. If, after investigation and review, it is determined that expulsion should be recommended to the board of education, the building principal or designee shall prepare appropriate documents. The superintendent shall arrange a time for a hearing. The notice of hearing on the recommended expulsion shall state the reasons for the recommendation for expulsion and shall have attached thereto documents that describe the alleged incidents that have precipitated the recommendation for expulsion. There shall be included a direct citation of the section of the Discipline Policy, Board Policy, and/or state statute that has been violated. The notice shall state the time and place of hearing.
3. Notice shall be sent to parent(s) or guardian(s) by certified mail or hand delivered. The parent(s) or guardian(s) and the student, if notice is served upon the student, shall sign an acknowledgment that they have personally received the documents. If the student has attained age eighteen (18), the notice shall be given to the student as well as to the student's parent(s) or guardian(s) unless the student has shown that he or she is not a dependent as defined in the Family Educational Rights and Privacy Act of 1974 and the regulations thereunder.
4. At the same time the notice and supporting documents are delivered to the student and his/her parents(s) or guardian(s), copies shall be forwarded to the members of the school board.

The Hearing

1. The hearing shall be held on a date not later than ten (10) school days from the first date of suspension, unless waived by the parent or guardian.

5. The student, if 18 years of age or his/her parent(s) or guardian(s) may waive the hearing by furnishing a signed statement that they will waive the hearing. Nothing in this policy shall be construed to prohibit settlement by the parent(s) or guardian(s) by agreement, or waiver of hearing, or both.
6. At the hearing, the student may respond to the complaint orally or in writing. The response may admit or deny the allegations of the notice in whole or in part. The student may also offer any explanation or comment that he/she believes relevant or appropriate.
7. Each party to the hearing, directly or through his/her legal counsel or advisor, may introduce evidence, witnesses to testify, or statements in writing, and may testify in his/her own behalf. To the extent that either party may rely on written statements as evidence, he/she shall clearly indicate how and from what source the evidence has been obtained. Each party shall have an opportunity to question any witnesses, either directly or through his/her legal counsel, or other advisor. If the board should find it necessary to limit the number of witnesses in order to protect the hearing against disruption, confusion, or unwarranted dilatory tactics, it shall have the authority to do so. The proceedings shall be administrative and not be conducted as an adversary proceeding.
8. If the student shall fail to appear at the hearing, or if, having appeared, shall make no response to the complaint, the board shall nevertheless invite the school administration to submit evidence in support of the complaint. The hearing shall be in closed session so as not to disclose confidential student records, unless an open session is requested by the student, or the parent(s) or guardian(s) of the student if the student is a minor.
9. If a party to the hearing should deliberately conduct himself/herself in a manner disruptive of the hearing, the board shall be authorized to exclude him/her and to proceed with the hearing as if he/she had not personally appeared. A hearing shall be attended only by the board, the superintendent, administrative personnel familiar with the case, the

student, the student's parents(s) or guardian(s), the student's legal counsel or other advisor, and the school board's legal counsel. Witnesses other than the foregoing should be excluded except when presenting information to the board, unless the student and his/her parent(s) or guardian(s) waive this exclusion. The board may order all witnesses to be excluded on its own motion.

10. Provisions shall be made either for a transcript or for a verbatim record in the form of a tape recording of the hearing. The complaint, the student's responses, the transcript or record, and all other papers in the proceeding except the final disposition of the case, shall be for use only in the proceedings and in the internal processes of the school district related thereto; and no such transcript, record or papers shall be voluntarily disclosed to any person outside the school district, except with the student's or parent's consent.
11. The Decision
 - a. The board in executive session shall consider all relevant evidence introduced at the hearing, make findings of fact and conclusions as to the disciplinary action as it deems appropriate. The board determination shall be by majority vote. The board may consider the student's prior record as submitted by the school administration at the hearing. The entire record, as submitted, shall be open to the student or his/her parent(s) or guardian(s) if the student is a minor. The school board shall promptly notify the parent(s) or guardian(s) and the student, as well as the superintendent or the person designated by him/her concerning the board's findings of fact and determination.
 - b. As per KRS 158.150(6) the decision of the board shall be final.
12. Upon expulsion from the regular school setting, provision of educational services will be required unless the Board determines on the record and supported by clear and convincing evidence that the expelled student poses a threat to the safety of other students or school staff and cannot be placed in a state-funded agency program.
13. Readmission shall be in the manner prescribed by the board of education.

SCHOOL BUS SAFETY REGULATIONS

Help us protect your children as they travel to and from school. Certain types of children's clothing can create a hazard as your child gets on and off the bus. Especially dangerous are the following: long jackets, sweatshirt drawstrings, **untied shoe strings**, long backpack straps, scarves, or any loose clothing that could be caught in the bus handrail, door, or other parts of the bus as your child is getting on and off the bus.

Please take the time to check your children's clothing, backpacks, and other items brought to school to help us ensure they arrive safely.

Riding the school bus is a privilege extended to all students who qualify under the policies of the Powell County Board of Education.

Students found to be in violation of bus riding rules may be subject to disciplinary actions, including suspension of bus riding privileges.

AT THE BUS STOP

- Arrive at the bus stop five (5) minutes before time for the bus to arrive. The bus driver is not permitted to wait for students.
- Keep all articles off the roadway and remain well clear of traffic.
- Unauthorized conduct, such as fighting, or damaging property may be subject to action by local police as well as the school.
- Wait until the bus stops and then walk to the bus in an orderly manner.
- If a hoodie or other head gear which blocks the driver from being able to identify a student is worn at the bus stop, the hoodie or head gear must be removed before entering the bus and while riding the bus.
- Students living on the opposite side of the road from a bus stop must wait on their side of the road until the bus is stopped and the driver signals them to cross.
- Students may use only the stop nearest their residence, unless written permission is obtained from their principal and provided to the bus driver.

RIDING THE BUS

- The bus driver may assign seats.
- Riders will share seats as assigned by the driver.
- No one may use any tobacco product, alternative nicotine product, or vapor product as defined in KRS 438.305 on the bus.
- Weapons, dangerous articles, or anything that would be considered dangerous are absolutely prohibited.
- There is to be no eating or drinking on the bus.
- Students shall not use cell phones for talking to others while on the bus.
- If ear buds are used for listening to electronic devices, one ear must be left exposed without an ear bud at all times to allow the passenger the ability to hear the driver.

- Profanity, obscene gestures, and excessive noise (as determined by the driver) are prohibited.
- Blankets are prohibited on the school bus.
- Keep voice volume to a whisper.
- Riders must not extend any body part out bus windows or in the aisles.
- Riders shall face forward at all times.
- Rear and left-side emergency exits will be used only under the direction of the driver or other person in authority.
- Harassment of other bus riders may be grounds for permanent suspension of bus riding privileges.
- Items carried on the bus must be of a size to sit in a student's lap and not block aisles or the vision of the driver from seeing other passengers. Backpacks on wheels or suitcases are prohibited.
- Students may not use any electronic devices that prevent them from hearing the bus driver if the driver needs to communicate with them. This is a safety measure.

A driver shall not knowingly permit any of the following to be transported on the bus:

- Firearms or weapons, either operative or ceremonial:
- Fireworks or any other explosive materials of any type:
- Animals, fowls, or reptiles: (with the exception of service animals as per Board Policy 06.342)
- Preserved specimens that would likely frighten any pupil or cause a commotion on the bus: or
- Glass objects or helium balloons.

UNSAFE CONDITIONS

Any condition which could result in injury to a bus rider is considered unsafe. These actions may occur while at, en route to, or from the bus stop. Parents will be notified in writing of each such occurrence. **This behavior may prohibit the student from riding the bus.** Some examples are: ****Throwing items inside, or at, the bus. **Failure to remain properly seated. **Improperly exiting the bus. **Fighting, yelling, and excessive noise. **Extending body parts out windows. **Intimidating or harassing other riders. **Failure to follow driver's instructions.**

BUS EVACUATIONS

Evacuation drills are conducted to familiarize students with the proper procedure to be followed in cases of emergency.

STUDENTS WHO MISS THE BUS

If a student misses the bus he/she should **NEVER** be brought to the bus at another stop and let out of a vehicle to walk up beside the bus to board. This is in the DANGER ZONE of the bus and puts the child in an extremely dangerous situation. The child should be taken to their school.

DESIGNATED STOP

Parents must designate one address as the student's designated stop. Students are allowed to exit the bus **ONLY** at their designated stop. Any request to leave the bus at another stop must be in writing and signed by the school principal/designee.

REMOVAL FROM BUS

Anytime the bus driver determines an unsafe condition exists on the bus, the bus must be stopped until the condition is corrected. Assistance may be requested from the Transportation Division. Students causing an unsafe condition may be removed from the bus. The student will be transported in another vehicle to school or the home. If student is transported to school, parents will be required to pick up the student at school.

FIGHTING ON THE BUS

Any student involved in a fight on the bus will receive the disciplinary consequences as set forth in the District Student Code of Conduct.

PRESCHOOL TRANSPORTATION

Preschool students who are transported home and do not have a person on the pick-up list present when the bus arrives will be transported back to their school.

As per board procedure 06.32 AP.1, upon the third (3rd) time the assigned adult is not present to receive the child, the parent(s)/guardian will be requested to provide transportation for the child.

CONSEQUENCES FOR VIOLATIONS

The bus driver will do everything he/she can do before writing a child up. If a driver must write a student up, the driver will specify the actions that the student did which broke a bus rule. If the driver writes a student up the principal is authorized to withhold bus-riding privileges up to a maximum of ten (10) school days for habitual or serious conduct violations. The principal shall contact the superintendent for approval of removing a student for more than 10 school days. The Principal shall notify the parents in cases where bus-riding privileges have been withheld.

The Superintendent or the Superintendent's designee may withhold bus-riding privileges up to one (1) calendar year.

Disciplinary action is determined by the level of the offense. Offenses are broken down into four (4) classes:

- 1. A minor, or Class I offense:** Defined as any inappropriate conduct or disruption on a school bus. This includes, but is not limited to, any kind of misbehavior from eating, drinking, littering, failure to sit in an assigned seat or stay in seat while bus is moving, getting on or off the bus incorrectly, refusing to share seats with other pupils, hitting other pupils, not waiting at the bus stop causing unnecessary delay, riding a bus other than one assigned or approved, making excessive noise, or insisting on taking items on the bus that are against the rules.

The first bus driver write-up in a school semester constitutes a conference with the student at the school, and the student's parents shall be notified. The second offense in a school semester constitutes the loss of bus privileges for a minimum of one (1) day. The third offense in a school semester constitutes the loss of bus privileges for two (2) days.

- 2. An intermediate, or Class II offense:** Defined as failure to follow directions related to safety and order on the school bus or habitually committing Class I offenses. Principals shall review bus write up records to determine habitual nature of offenses. This includes refusing to obey the bus driver, making inappropriate gestures to people outside the bus, putting a body part outside the bus window, throwing objects inside or outside the bus, disrespecting the driver/monitor, using abusive or vulgar language to the driver or other passengers, or any other behavior relating to safety.

Disciplinary action for a Class II offense shall result in a loss of bus privileges for a minimum of three (3) days. A second intermediate offense constitutes up to five (5) days suspension of bus privileges. A third offense constitutes up to ten (10) days suspension of bus privileges.

- 3. A major, or Class III offense:** Defined as a violation of safety procedures on a school bus that may lead to injuries or the bus being damaged or habitually committing Class II offenses. The measure also refers to any unjustified activation of a bus emergency system, including emergency doors, and windows, unless directed by the bus driver. This offense also includes, but is not limited to, fighting, pushing, tripping, the use or possession of tobacco products, alternative nicotine products, or vapor products, use or possession of a lighter, and damaging the bus seats or other bus parts.

Disciplinary action for a Class III offense constitutes the loss of bus privileges for a minimum of ten (10) school days. A second violation shall result in a suspension of bus privileges for a up to twenty (20) school days per superintendent approval. A third violation constitutes a suspension of bus privileges for up to thirty (30) days per superintendent approval. If a student repeatedly displays inappropriate behavior on a bus, the student shall be referred to the superintendent or designee and may lose bus privileges for up to one calendar year.

- 4. Zero Tolerance offense, or Class IV offense:** Defined as the most severe class of violations. This class could include, but is not limited to, possession or use of a controlled substance, trafficking in a controlled substance or inappropriate sexual behavior. A student who breaks rules at this level shall receive consequences by the superintendent or designee who may withhold privileges up to one calendar year.

STUDENT AND PARENT GRIEVANCE PROCEDURE

The Powell County School System, to be effective, must be attentive to the individual needs and concerns of the students and parents who are served by it. It is the belief of this school system that students and parents have a right to be heard concerning individual grievances and complaints. Therefore, the Powell County Board of Education adopts the following grievance procedure to provide students and parents with an appropriate means to resolve problems, which may occasionally arise in the operation of the public schools.

Purpose

The grievance procedure is to provide for orderly, equitable resolutions to problems, which may arise affecting students, parents, and the school system, at the lowest possible level of administration.

The school board requests that all parents and students attempt to resolve any grievance or complaint with the school system through the following procedure prior to bringing the matter to the attention of the board of education.

Definition of Grievance

Whenever a student and/or parent who believes that he or she has been adversely affected because a school official (teacher, principal, or any other school system employee) has misinterpreted, violated, or failed to enforce a state or federal law, including Title IX education and amendments dealing with sex discrimination, school board policy, administrative regulation, or local school rule or regulation, a grievance may be brought in accordance with the following procedures.

Grievance Procedures

Students wishing to initiate a harassment/discrimination complaint should use Procedure 09.42811 AP.2.

CONDITIONS

1. All grievances are individual in nature and must be brought by the individual grievant.
2. All grievance proceedings shall be conducted outside the regular school day and at a time and place mutually agreed upon.
3. The grievant shall be permitted to have not more than two (2) representatives.
4. All attendant records shall be filed in the office of the Principal and/or Superintendent and shall be considered private information and separate from the student's educational records. All records will be kept for a minimum of three (3) years.
5. No reprisal shall be taken against any aggrieved student because of the filing of a grievance.

TIME LIMITS

1. Students or their parents must file their grievance within fifteen (15) school days following the alleged violation. However, depending on the nature of the grievance, the Superintendent may recommend an extension of the filing deadline to twenty (20) school days if the grievance is based on an alleged violation of constitutional, statutory, regulatory, or policy provisions.
2. Days referred to in the grievance initiation form shall be school days.
3. The time limits stated in various sections of these procedures may be extended by mutual consent of the Board, its authorized agents, and the grievant.
4. If no extension occurs and the grievant does not file an appeal to the next level within ten (10) school days of receiving a response, the grievance shall be considered to have been settled and terminated at the previous level, and the answer given at that level shall stand.

PRINCIPAL'S/SCHOOL COUNCIL'S INVOLVEMENT

1. When appropriate, the grievant shall give his/her communication directly to the Principal, thus bypassing the teacher or other employee. This action shall be taken only in those instances where the matter communicated is of such a personal and private nature that it cannot be effectively communicated at a lower level or in those instances where the nature of the grievance would require the initial response of the Principal.
2. The Principal reserves the right to redirect the communicator to the appropriate level and/or consult with the council, as appropriate.

SUPERINTENDENT'S/DESIGNEE'S INVOLVEMENT

1. When appropriate, the grievant shall give his/her communication directly to the Superintendent, thus bypassing the Principal. This action shall be taken only in those instances where the matter communicated is of such a personal and private nature that it cannot be effectively communicated at a lower level or in those instances where the nature of the grievance would require the initial response of the Superintendent.
2. The Superintendent reserves the right to redirect the communicator to the appropriate level.

BOARD OF EDUCATION'S INVOLVEMENT

1. If the student, after reviewing the Superintendent's response, desires direct communication with the Board of Education, the student may present his/her written communication to the Superintendent for transmittal to the Board of Education or notify the Superintendent ten (10) school days prior to the meeting of the Board at which the student wishes the

grievance presented. Students contacting Board members individually about a grievance shall be advised to communicate with the entire Board.

2. If the Board decides to review the grievance, the student will then be afforded an opportunity to appear before the Board at the next regular meeting for relevant discussion of the student's communication. If the student does not wish to make a verbal presentation, the student's right to refrain from such activity will be respected.
3. The Superintendent or the grievant shall present the communication to the Board of Education at its next regularly scheduled meeting.
4. The Board of Education will consider the grievance and will provide the student a written response within ten (10) school days after the next regularly scheduled meeting of the Board, following the meeting of the Board at which the grievance was initially presented. The decision of the Board of Education shall be final.

Notification of FERPA Rights Board Policy

09.14.AP.111

The Family Education Rights and Privacy Act (FERPA) affords parents and "eligible students" (students 18 years of age or older or students who are attending a postsecondary institution) certain rights with respect to the student's education records. They are:

1) *The right to inspect and review the student's education records within forty-five (45) days of the day the District receives a request for access.*

Parents or eligible students should submit to the school Principal/designee a written request that identifies the record(s) they wish to inspect. The Principal will make arrangements for access and notify the parent or eligible student of the time and place where the record(s) may be inspected.

2) *The right to inspect and review logs documenting disclosures of the student's education records.*

Except for disclosure to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosure to the parent or eligible student, FERPA regulations require the District to record the disclosure.

3) *The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or in violation of the student's privacy or other rights.*

Parents or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, or in violation of privacy or other rights. They should write the school Principal, clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading, or in violation of their privacy or other rights.

If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise him/her of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

4) *The right to provide written consent prior to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.*

Exceptions that permit disclosure without consent include:

- a. Disclosure to school officials with legitimate educational interests. A "school official" is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school Board; a volunteer, or an outside person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility.

This may include contractors, consultants, volunteers, and other parties to whom the District has outsourced services or functions. It may also include online educational services and software utilized by the District to support student evaluation, assessment, and instruction.

- b. Upon request, disclosure of education records without parent/eligible student notice or consent to officials of another school district or post-secondary institution in which a student seeks or intends to enroll or is already enrolled or to other entities authorized by law so long as the disclosure is for purposes related to the student's enrollment or transfer.

- c. Disclosure of information to those whose knowledge of such information is necessary to respond to an actual, impending, or imminent articulable and significant health/safety threat.
- a. Disclosure to state and local educational authorities and accrediting organizations, subject to requirements of FERPA regulations.

Designated Kentucky State agencies may be permitted access to student record information, which will depend in the authority granted to their particular agency.

5) ***The right to notify the District in writing to withhold information the Board has designated as directory information as listed in the annual directory information notice the District provides to parents/eligible students.***

To exercise this right, parents/eligible students shall notify the District by the deadline designated by the District.

6) ***The right to prohibit the disclosure of personally identifiable information concerning the student to recruiting representatives of the U.S. Armed Forces and its service academies, the Kentucky Air National Guard, the Kentucky Army National Guard, and institutions of higher education.***

Unless the parent or student who has reached age 18 requests in writing that the District not release information, the student's name, address, and telephone number (if listed) shall be released to Armed Forces recruiters and institutions of higher education upon their request.

7) ***The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.***

The name and address of the Office that administers FERPA is:

Access to Electronic Media

(Acceptable Use Policy)

The Board supports reasonable access to various information formats for students, employees and the community and believes it is incumbent upon users to utilize this privilege in an appropriate and responsible manner as required by this policy and related procedures, which apply to all parties who use District technology.

SAFETY PROCEDURES AND GUIDELINES

The Superintendent shall develop and implement appropriate procedures to provide guidance for access to electronic media. Guidelines shall address teacher supervision of student computer use, ethical use of electronic media (including, but not limited to, the Internet, e-mail, online classrooms, and other District technological resources), and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of networks for prohibited or illegal activities, the intentional spreading of embedded messages, or the use of other programs with the potential of damaging or destroying programs or data.

Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Internet safety measures, which shall apply to all District-owned devices with Internet access or personal devices that are permitted to access the District’s network, shall be implemented that effectively address the following:

- Controlling access by minors to inappropriate matter on the Internet and World Wide Web;
- Safety and security of minors when they are using electronic mail, chat rooms, social media, YouTube, online classrooms, and other forms of direct electronic communications;
- Preventing unauthorized access, including “hacking” and other unlawful activities by minors online;
- Unauthorized disclosure, use and dissemination of personal information regarding minors; and
- Restricting minor’s access to materials harmful to them.

A technology protection measure may be disabled by the Board’s designee during use by an adult to enable access for bona fide research or other lawful purpose.

The District shall provide reasonable public notice of, and at least one (1) public hearing or meeting to address and communicate, its initial Internet safety measures.

Students and/or employees may use privately owned mobile technology devices, including but not limited to, smartphone, iPod Touch, iPad, laptop, etc. and are responsible for security, maintenance and repair of the devices. Use of such devices shall adhere to all guidelines in the District Acceptable Use Policy and accompanying procedure(s).

Specific expectations for appropriate Internet use shall be reflected in the District’s code of acceptable behavior and discipline including appropriate orientation for staff and students.

PERMISSION/AGREEMENT FORM

A written parental request shall be required prior to the student being granted independent access to electronic media involving District technological resources.

The required permission/agreement form, which shall specify acceptable uses, rules of on-line behavior, access privileges, and penalties for policy/procedural violations, must be signed by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. This document shall be kept on file as a legal, binding document. In order to modify or rescind the

agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

Employee Use

Employees shall not use a code, access a file, or retrieve any stored communication unless they have been given authorization to do so. (Authorization is not required each time the electronic media is accessed in performance of one's duties.) Each employee is responsible for the security of his/her own password.

Employees are encouraged to use electronic mail and other District technology resources to promote student learning and communication with the home and education-related entities. If those resources are used, they shall be used for purposes directly related to work-related activities.

District employees and activity sponsors may use social networking tools using District resources and following District guidelines to promote communications with students, parents, and the community concerning school-related activities and for the purpose of supplementing classroom instruction.

Staff members are discouraged from creating personal social networking sites to which they invite students to be friends. Employees taking such action do so at their own risk.

All employees shall be subject to disciplinary action if their conduct relating to use of technology or online resources violates this policy or other applicable policy, statutory or regulatory provisions governing employee conduct. The Professional Code of Ethics for Kentucky School Certified Personnel requires certified staff to protect the health, safety, and emotional well-being of students and confidentiality of student information. Conduct in violation of this Code, including, but not limited to, such conduct relating to the use of technology or online resources, must be reported to Education Professional Standards Board (EPSB) as required by law and may form the basis for disciplinary action up to and including termination.

COMMUNITY USE

On recommendation of the Superintendent/designee, the Board shall determine when and which computer equipment, software, and information access systems will be available to the community.

Upon request to the Principal/designee, community members may have access to the Internet and other electronic information sources and programs available through the District's technology system, provided they attend any required training and abide by the rules of usage established by the Superintendent/designee.

DISREGARD OF RULES

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using equipment, software, information access systems, or other computing and telecommunications technologies.

Employees and students shall be subject to disciplinary action, up to and including termination (employees) and expulsion (students) for violating this policy and acceptable use rules and regulations established by the school or District.

RESPONSIBILITY FOR DAMAGES

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care. Vandalism shall result in a loss of privileges. Students or staff members who deface or make unauthorized changes to a District web site, social media page, or Google classroom, shall be subject to disciplinary action, up to and including expulsion and termination, as appropriate.

RESPONDING TO CONCERNS

School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

AUDIT OF USE

The Superintendent/designee shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law or for accessing sexually explicit materials. The process shall include, but not be limited to:

1. Utilizing technology that meets requirements of Kentucky Administrative Regulations and that blocks or filters internet access for both minors and adults to certain visual depictions that are obscene, child pornography, or, with respect to computers with Internet access by minors, harmful to minors;
2. Maintaining and securing a usage log; and
3. Monitoring online activities of minors.

RETENTION OF RECORDS FOR E-RATE PARTICIPANTS

Following initial adoption, this policy and documentation of implementation shall be retained for at least ten (10) years after the last day of service in a particular funding year.

Student Access to Electronic Media

Electronic access including Internet, social networking tools, and e-mail shall be in support of education and research. Limited personal use of technology is permitted as long as the use does not interfere with the employee's job duties or performance and must comply with acceptable use guidelines.

PROCEDURES AND GUIDELINES FOR GAINING ACCESS TO DISTRICT RESOURCES

Powell County Schools
Infinite Campus Portal for Parents/Legal Guardians
 Acceptable Use Policy

User Expectations

The Powell County School District manages student information electronically and will make the student's educational records available for viewing only to authorized parent/legal guardians and students with a secure connection over an Internet Portal via Infinite Campus. All parents/legal guardians and students must comply with the Internet use regulations and technology regulations/procedures, as well as all other District policies that may apply.

The Parent Portal is a service offered to all parents/legal guardians and students in grades 4-12 of the Powell County School District to access online, timely and secure information. After a family has enrolled their child(ren) in the Powell County School District and signed the Infinite Campus Portal for Parents/Legal Guardians Agreement, the parent/legal guardian will be provided with their own unique portal activation key for creating a user login and password for the parent portal. This agreement and account will remain in effect until a student withdraws/graduates from the Powell County School District or a court action denies the parent/guardian access to the student's information. Students in grades 4-12 wishing to access their educational records via the portal must sign the District Acceptable Use Policy. Once a student turns eighteen years old, they will need to sign a records release form granting parents/legal guardians access to their records via the Parent Portal.

Use of the System

By activating an account, parents/legal guardians are agreeing to abide by and support the terms of use set forth in this document to insure the safety and privacy of each student. The District reserves the right to limit or terminate the Internet Portal site, to change user passwords and deny access at any time.

As a user of the Portal, parents/legal guardians are expected to practice proper and ethical use, adhering to the following guidelines.

Parents/legal guardians:

- Will act in a responsible, ethical, and legal manner.
- Will not attempt to harm/destroy the school or the district's data or networks.

- Will not attempt to access information or any account assigned to another user.
- Will not use this Internet site for any illegal activity, including violation of Federal and State Data Privacy Laws.
- Will notify the school system immediately upon identifying a security problem with the Portal.
- Will not share their password with anyone, including their own child(ren).
- Will not set their computer to automatically login to the Internet site.
- Will properly protect or destroy any printed/electronic documentation generated from this site.

Security Features

The Parent Portal is secure. Among the safety measures included in the system is the automatic disabling of a user's account that will occur if five unsuccessful login attempts are made on the account. Until District administration has verified the assigned user to the locked account, the account will remain locked. To have the account reset, email ICsupport@powell.kyschools.us. Please provide your full name, home address, phone number and student(s) names along with the username and password you are trying to use.

Limitation of School District Liability

The Powell County School District will use reasonable measures to protect student information from unauthorized viewing. The District will not be responsible for financial obligations arising through unauthorized use of the District's system or Internet. The District does not promise any particular level or method of access to the Internet site for viewing student information. The District will not be responsible for actions taken by the parent/legal guardian or student that would cause compromise of their student information. All parents/legal guardians with an active Portal account consent to electronic monitoring and understand that this is a private network used as an educational tool by the Powell County School District. Account activity is electronically recorded.
