The 5th grade teachers celebrated the end of the school year by making tie-dyed masks and t-shirts with their students.

Seventh grade students used their science skills to carry out an experiment, collect, and analyze data to determine if water temperature has an effect on the rate a candy coating dissolves in water.

The Special Education annual trip was cancelled due to COVID. So, instead they held a field day for their students and staff.
Mr. Softee visited the Elementary School on May 26th and 27th to provide an end of the year treat for the whole school.

The 5th grade students worked on building their tallest and sturdiest marshmallow and spaghetti structures that can hold a large marshmallow in science class.
